BUT LITTLE CHANGE under fever.

In New Orleans.

WHAT THE CITY CHEMIST FOUND

As Many as Sixty People In One Room In the Italian Quarters-Eleven New Cases at Mobile and Many People Have Left the City-Slight Increase at Edwards-Yellow Jack at Cairo, Ills.

NEW ORLEANS, Sept. 20.—The local fever situation has undergone little mild form. Owing to the prompt meas-change. Last night the recordbook in ures taken there is no danger of its fever situation has undergone little the board of health office showed a total spreading. of six new cases and one death. The official bulletin, however, shows two deaths, that of the woman Santa Graffato, who died in the hospital Saturday night, not having been included in the official bulletin, although reported in the press dispatches.

The first two cases are in the extreme upper portion of the city; one is in the Fourth district, one is in the St. Claude street house, where the original six cases were reported, and one is in the Williams house, where two cases already existed. There are three cases under investigation and the health authorities still view the situation with senate; Albert E. Scott of Louisville some complacency. They do not yet and John Hollenbach of Louisville. The anticipate an epidemic.

What the City Chemist Found. The report of Dr. Metz, the city chemist, on the condition of the Italian quarter, moved the board to prompt acceptance yesterday of the offer to the city of the Marine hospital as a refuge. Dr. Metz found as many as 60 people huddled together in the Italian quarter living in squalor and filth. In one of the rooms a goat was found sleeping nightly with the family who owned it. The woman Garffato was taken from this quarter. It has therefore been decided to guard and thoroughly disinfect and fumigate the entire square and to remove, as soon as possible, most of the families to the old Marine hospital. The 100 squatters who now occupy the latter building wili be given quarters in one of the new schoolhouses in the vicinity and the Marine hospital buildings will be permanently used as a refuge until the fever is stamped out for the families of the Italian quarters and those of the indigent sick throughout the city.

At a largely attended meeting of bankers, business men, ministers and representatives of labor organizations it was resolved to ask the board of health to consider the advisability of adopting

next Tuesday as a general cleaning day. President Olliphant has replied to the suggestion strongly deprecating it. He wrote that it would be inadvisable and nexpedient to determine upon a fixed day for cleaning purposes, as such a movement would cause an accumulation of filth and trash which could not be removed at once and by the stirring up of miasma would further endanger the health of the city instead of improving it. The board suggests each individu... curred near the Union station yesterday proceed without delay to the cleaning of his own premises, to the disinfection between an outgoing Wabash passenger of his waterclosets, alleys, yard, etc., and the destruction of all decaying matsas and Colorado passenger train. Eleven New Cases Reported-Many People Have Left the City.

MOBILE, Sept. 20 .- The official bulletin last night showed 11 new cases, was just entering a switch from the main track when the Colorado train, making the total number of cases 29, which had the right of way, came rush- and three deaths to date.

The president of the board of health last night commented upon the day's rethrown from the track, overturned and port as follows: "The cases reported today were taken, one on the 12th, one on the 13th, one on the 14th, three on the 15th, four on the 16th and one on the 18th, so there is in reality but one new case. The total of cases shows a persistency of the disease, but not a rapid increase and all the cases are in one infected district, save in one locality. All the cases, with one or two excep-tions, are doing well. Many people E. Wilkinson, widow of Dr. H. J. Wil- have gone away, but those remaining think it prudent to avoid gatherings of

This ever recurring tragedy could be avoided if women would but learn the vital importance of caring for the health and vigor of the delicate organs that bear the burdens of maternity. The woman who neglects weakness and disease of these organs is unfitted for motherhood and it only holds out to her the eertainty of agotizing pain and possible death.

A sure, safe, and speedy cure for all weakness and disease of the organs distinctly feminine is found in Dr. Pierce's Favorite Prescription. It prepares for motherhood by making these organs strong, bealthy and elastic. If taken during the period preced ing motherhood it banishes the usual dis-comforts. It insures a healthy baby and makes its advent easy, almost painless. It provides ample nourishment for the new-comer, and shortens the mother's period of illness and debility. ON THE WHITE PASS

Sylvester Scoville Tells of the Condition of the Trail.

Laborious Route Taken by Most of the Goldseekers-Blasting a Route Along the Skaguay River-Twenty-Five Hundred Men Have Gone Over the Chil-

SEATTLE, Wash., Sept. 20.—The most conspicuous figure of the grand confusion at Skaguay and the White pass is without doubt Sylvester Scoville, the famous newspaper correspondent, who is organizing the necessary tools and dynamite to put the trail in passable condition at considerable expense, enabling many to get through to the gold fields this fall. Mr. Scoville is now in the city, having arrived yesterday on the Rosalie.

Mr. Scoville brings the news, which will come with comforting assurance to thousands of people who have friends on the pass, that at least 2,000 men with complete oufits will get through to the Yukon river, though he believes that only a small fraction of this number will reach Dawson City before winter.

From the best information which he could obtain, gathered from all sources, $\begin{bmatrix} 0 & 1 & 3 & 2 & 0 & 0 & 0 - 6 & 9 & 5 \\ 0 & 1 & 3 & 2 & 0 & 0 & 0 - 6 & 9 & 5 \end{bmatrix}$ he believes that 2,500 men have gotten Batteries—Terry and Speer.

"When you ask me what condition the White t ail is in," said Mr. Scoville, "I tell you the White pass has not been used by the thousands of men who have been climbing over the mountains from Skaguay to the lakes. The trail crosses and recrosses the river and makes long detours which would be unnecessary by the use of a little dynamite. The sum of \$5,000 would make a fine pack trail to Lake Bennett. Not more than \$15,000 would be required to build a good wagonroad the entire distance.

"When I arrived at Skaguay and had been over the route and had secured a thorough knowledge of the conditions surrounding it, I saw that the confusion would continue to increase until the men would organize and make a united effort to fix up the trail. But none of the men were willing to put up the money necessary to buy dynamite and tools. Every man wanted to push on. but was unwilling to do anything to help others. I doubt if even at the Greek retreat from Larissa was there such a desire to get ahead of others. But the trail was deep in mud and blockaded, and there was no head nor authority.

"In this dilemma, recognizing the need of immediate action, I provided ample explosives and tools. When the with the company. The rental paid by news arrived that the necessary dynamite and tools had been provided, the men organized and went to work-800 of them. Three points of rock which jutted out into the river and which necessitated long and laborious detours were blasted out, saving from two and a half to three miles of travel, making a passable route for hundreds of men and

IRON NERVE.

Execution of a Captain Who Had Killed His Major.

CITY OF MEXICO, Sept. 20.-Captain Cota of the Twelfth infantry was some time since condemned to death for insubordination for the killing of a major of his regiment in Sonora during the Yaqui rebellion, has just been shot here. Detachments from all the garrisone were present, about 1,500 men being drawn up on three sides of the square.

Cota's nerve was indomitable and his courage superb. As he advanced down the length of the square, a distance of at least 100 yards, he was quietly puffing at a cigarette, and when the squad halted he walked deliberately to the position assigned to him.

Not even there did his courage for-

sake him, for when the officer strode toward him bandage in hand, with the intention of blindfolding him, Captain Cota at once motioned him away, declaring he was not afraid. Not even as the officer in charge of

the firing party took his place and with his sword motioned the orders to the men, "Ready, present, fire," not even during this trying period was there the least trace of fear on the face of the ondemned man. At the first discharge he dropped dead.

wo Columbus Colored Youths Have Trouble Over the Attentions of a Seymour

Saturday morning at Columbus John Browning, better known as "Snipps' and Jack Curtiss, known as "Happy Jack" had trouble over Miss Sallie Coleman a Seymour lass of color. She was spending a few days in Columbus, and "Snipps" was happy until "Happy \$1.00 Jack" "beat his time". Then he was miserable. 'Snipp' procured a buggy whip and proceeded to use it on the young lady until the appearance of Columbus Republican gives the followng version of the affair.

"We's sutinly the wahmest things in dis here town," lovingly whispered Happy Jack this morning, as he leisarely strolled down Washington street with a belle of Seymour on his arm.

A WOMAN'S LIFE.

Many Private Troubles Borne Without Complaint.

How many, think you, have any idea of the suffering endured by a large pro-

portion of American women? You will think us extravagant in expression, yet the fact remains, that diseases of the uterus and ovarian troubles are universal- you may note their ravages in the pale faces you meetmore marked indications are dizziness, faintness, irritability, melancholy, extreme lassitude, sleeplessness, severe backache and disturbances of the stomach. A Cincinnati girl says:-

"Words cannot express my gratitude for the good that Lydia E. Pinkham's Vegetable Compound has done for me. i have taken five bottles. The pains in my chest and abdomen have gone my step is more steady, appetite better and feel better in every respect. Menses heretofore lasted too long. Constable Gable put him to flight. The were very profuse and made me very weak. The Compound is a miracle. I had tried doctor's medicine, but of no avail. I would not give up the Compound for female complaints for all the doctor's medicine in the world. My friends want to know what makes me look so well. I do not hesitate one moment in telling them what has brought about this wonderful change. I cannot sing its praises enough. I "Dat haint't not lie, babe", was her hope every one who suffers as I have, will give Lydia E. Pinkham's Compound assenting reply, unconsciously breaking a trial. TAKING THE TEMPERATURE.

Experiments at Blue Hill Observatory In the Use of Kites.

BLUE HILL OBSERVATORY, Mass. Sept. 20.—All kite records were broken here when the topmost kite of a string of seven, all of the Hargrave type, with miles of wire, attained an altitude of 10,016 feet above the sea level, or 9,386 feet above the summit of the hill. An aluminum box was sent up containing an instrument for recording pressure, temperature and humidity, and was! swung 130 feet below the topmost kite.

At the highest point the instrument recorded a temperature of 38 degrees, while at the same time it was 63 at the surface of the earth. At a height of 4,000 feet the humidity rose rapidly but sunk again at a mile where it was quite low. At 70,000 feet it again rose and soon reached a point where there was almost a complete saturation in the air. From there up the atmosphere became dry until at the highest point there was scarcely any moisture recorded. At the ground the humidity was quite low.

Size For Size. The company of one of the opera houses, at the close of a London season, had arrived at Liverpool to embark for a continental tour. The musical instruments were being shipped with the rest, and among them was the double bass, Happy Jack suddenly remembered an or "big fiddle," as it is also called, not cased as usual, for this member of the string family will stand a little rough

Nature's Battleboxes.

Near New Brunswick, N. J., says Minerals, are found hollow balls, or masses, of yellow iron ore which contain loose particles that rattle, when shaken, like the contents of a child's rattlebox. It is thought that when the concretions of ore were formed the central parts consisted principally of some material which afterward dissolved away, so that the interior space now contains only fragments of ore and sand. When these balls are broken, the fractured edges sometimes show beautiful bands of red and yellow.

QUIET AT VERSAILLES

No Disturbances Over the Recent Lynching as Was Expected.

STAR POINTER'S GREAT HEAT.

Alleged Detective Hostettler Returns to the Scene of the Ripley County Lynching-Diphtheria Epidemic In Several Counties-Fatal Well Damp-Charged

VERSAILLES, Ind., Sept. 20.—There was no trouble here or at Osgood yesterday, as was expected, on account of the five lynchings last Wednesday. Thousands of visitors and relic hunters were here and Peter Hostetter, the informant, went about town heavily armed, but did not venture to go to Osgood. The ministers all preached on the recent calamity. Mrs. Jenkins is having her trial today, and the others arrested for concealing stolen goods will be tried on Wednesday.

Had His Gun. Osgood, Ind., Sept. 20.—A sensation occurred here Saturday evening on the arrival of the eastbound train. Pete Hostettler stepped off with a revolver in his hand and walked quickly to the Versailles hack, and laying his revolver on his lap quietly waited the changing of the mail. His presence produced a hush among the crowd at the depot and not until the hack was well under way to Versailles did they breathe easy. He will probably remain there until after the preliminary trials of Mrs. Rittenhouse and Mrs. Jenkins who have been arrested for concealing stolen goods.

DIPHTHERIA.

Disease Now Epidemic In Several Indi-

ana Towns. INDIANAPOLIS, Sept. 20.—The state board of health says it has evidence indicating that diphtheria will probably prevail unusually when cold weather begins. The disease is already epidemic at points in Jackson, Clinton, Bartholmew, Owen, Laporte, Scott, package. Try it. Ask for GRAIN-O. Lake and Jennings counties. The points of infection are therefore generally distributed over the state. Special information and instruction have been sent to all county, city and town health officers and it is believed the disease will not, on account of the precautions already taken, be anything near as exten-

sive as last year. STAR POINTER WINS.

Last Heat In the Big Race Taken From

Joe Patchen-Time 2:01. Indianapolis, Sept. 20.—The third heat in the great race between Star Pointer and Joe Patchen was run at the fair grounds Saturday afternoon. Star Pointer broke the world's record by making the remarkable time of 2:01. The last previous record in harness was made last year by Robert J. Time 2:434, 2:03, 2:01.

Fatal Well Damp.

PRINCETON, Ind., Sept. 20.—William Liab, aged 19, died Saturday night from the effects of inhaling gas in a well in which he was working. He went into the well too soon after a blast with dyn amite. When brought to the surface h was bleeding profusely at the mouth and nose. The dead boy is a son of Louis Liab, a well-to-do farmer.

Freight Wreck. INDIANAPOLIS, Sept. 20.—There was a freight wreck on the Louisville branch of the Pennsylvania road near Southport, which resulted in the death of Brakeman J. L. Marshall of Louisville. The train broke in two and the rear end crashed into the front portion of the train, completely demolishing 12 cars.

FREIGHT WREUK NEAR SOUTHPORT

Brakeman Killed.

There was a bad freight wreck near Southport about 3 o'clock Sunday morning which resulted in the death of Brakeman J. L. Marshall, of Louisville, and destruction of several thousand dollars' worth of property. It was regular freight train No. 85, which was due at Indianapolis from Louisville at 10 o'clock Saturday night. It was about five hours late. Apparently without the knowledge of the engineer, the train broke in two somewhere south of Southport. As the head end of the train passed that village it slowed up and the rear portion came down upon it. There was a terrific crash. The cars were mostly loaded coal cars Twelve of them were completely de molished. Head Brakeman Marshall was walking back over the first half . the train when the two parts came together. He was thrown under the wreck and crushed almost beyond recognition. A wrecking train reached the scene an hour after the collision and by daylight the track was clear The body of Marshall was taken to Indianapolis where it was viewed by the coroner. Yesterday afternoon it was shipped to Lonisville by the railway company. Marshall was about thirty years old and unmarried

THE DIPLOMATIC CORPS BEFORE THE REIGNING POTENTATE.

A Formal Reception by the Emperor. Stiff Necked Ceremony In the Midst of Rich Trappings-Magnificent Temples and Palaces In the Forbidden City.

After the present emperor ascended the throne of China his government rielded the point and agreed to receive the diplomatic corps in the same manner that they are received by the sovereigns of Europe. The first ceremony of the kind, which took place on March 5, 1891, was an event in Chinese history. The members of the several legations many changes in the arrangements arrived at Fu Hua, or East Flower gate and furnishings of the rooms and of the forbidden city, at 10 o'clock on that morning in sedan chairs, each escorted by two mounted officers of the Imperial guards. They were there met by the members of the Tsung li Yamen, who conducted them to the Shih Yung Kung, the temple of the great river god, when they were offered tea and sweetmeats. An hour later they were escorted pose, namely, a receptable for the urine, to the Tsu Kuang Ko, or reception hall, and as such it is not liable to any form a handsome building profusely decorated of disease except by one of two ways with gilded coverings and ornamented with gay colors. What the City Chemist Found. The report of Dr. Metz, the city chemist, on the condition of the Italian quarter, moved the board to prompt acceptance yesterday of the offer to the city of the Marine hospital as a refuge. Dr. Metz found as many as 60 people huddled together in the Italian quarter living in squalor and filth. In one of the rooms a goat was found sleeping nightly with the family who owned it. The woman Garffato was taken from this quarter. It has therefore been decided to guard and thoroughly disinfect and fumigate the entire square and to remove, as soon as possible, most of the families to the old Marine hospital. The 100 squatters who now occupy the latter building will be given quarters in one of the new schoolhouses in the vicinity and the Marine hospital buildings will be permanently used as a refuge until the fever is stamped out for the families

of the Italian quarters and those of the indigent sick throughout the city.

At a largely attended meeting of bankers, business men, ministers and representatives of labor organizations it was resolved to ask the board of health to consider the advisability of adopting next Tuesday as a general cleaning day. President Olliphant has replied to the

suggestion strongly deprecating it. He wrote that it would be inadvisable and inexpedient to determine upon a fixed day for cleaning purposes, as such a movement would cause an accumulation of filth and trash which could not be removed at once and by the stirring up of miasma would further endanger the health of the city instead of improving it. The board suggests each individual proceed without delay to the cleaning of his own premises, to the disinfection of his waterclosets, alleys, yard, etc., and the destruction of all decaying matsas and Colorado passenger train. CABINET CRISIS FEARED.

Bishop of Majorca Excommunicates the Spanish Minister of Finance.

Madrid, Sept. 20. - Fears are expressed in well informed circles that a cabinet crisis may result from the conlearic islands, who, in defiance of the order of the archbishop, has persisted in his excommunication of Signor J. Reyerter, the Spanish minister of finance, for taking possession of the church in his diocese. The decree of excommunication was read with all formality in all the churches of the diocese.

Several influential prelates approve the course of the bishop. Their attitude, which is absolutely opposed to that of all the members of the cabinet, who have applied to the pope against the decree through the papal nucio, has raised a complicated issue between the ecclesiastical and political authorities.

The cabinet relies upon the dictum of the nuncio that the bishop has no jurisdiction over the minister and upon his further assurance that the pope will undoubtedly censure the bishop.

THREE FIREMEN HURT.

Fast Mail Train Dashes Into an Apparatus Going to a Fire.

CLEVELAND, O., Sept. 20. - While erossing the tracks of the New York, Pennsylvania and Ohio railroad on Etna street a fire department truck was struck by the fast mail. As a result Captain Gavins is probably fatally injured, while another member of the company, and the gateman at the crossing were also dangerously hurt. No gates were down and the truck started across the tracks.

The horses had passed over safely, when the fast mail struck the apparatus and hurled it into space like so much cardboard. Captain Gavins was the most severely injured, being hurt about the back, ribs and hips. Thomas Axford, the fireman, sprained his ankle and leg. John Cullen, the gateman at the crossing, sustained serious injuries.

Laborious Route Taken by Most of the Goldseekers-Blasting a Route Along the Skaguay River-Twenty-Five Hundred Men Have Gone Over the Chil-

SEATTLE, Wash., Sept. 20.—The most conspicuous figure of the grand confusion at Skaguay and the White pass is without doubt Sylvester Scoville, the famous newspaper correspondent, who is organizing the necessary tools and dynamite to put the trail in passable condition at considerable expense, enabling many to get through to the gold fields this fall. Mr. Scoville is now in the city, having arrived yesterday on the Rosalie.

Mr. Scoville brings the news, which will come with comforting assurance to thousands of people who have friends on the pass, that at least 2,000 men with complete oufits will get through to the Yukon river, though he believes that only a small fraction of this number

will reach Dawson City before winter. From the best information which he could obtain, gathered from all sources, he believes that 2,500 men have gotten over the Chilkoot pass and have gone on down to the mines. These men have, however, with few exceptions, gone through with little or no supplies, the average amount taken by each man being not over 500 or 600 pounds, not more than enough to get him to the scene of the great gold fields, where provisions

are not to be had. "When you ask me what condition the White t ail is in, "said Mr. Scoville, "I tell you the White pass has not been used by the thousands of men who have Skaguay to the lakes. Instead of using the pass, the men have scrambled up Coumbus, O., Sept. 20.—Fully 20,000

CITY OF MEXICO, Sept. 20 .- Captain Cota of the Twelfth infantry was some time since condemned to death for insubordination for the killing of a major of his regiment in Sonora during the Yaqui rebellion, has just been shot here. Detachments from all the garrisone were present, about 1,500 men being drawn up on three sides of the square.

Cota's nerve was indomitable and his courage superb. As he advanced down the length of the square, a distance of at least 100 yards, he was quietly puffing at a cigarette, and when the squad halted he walked deliberately to the position assigned to him.

Not even there did his courage for-sake him, for when the officer strode to-ward him bandage in hand, with the in-tention of blindfolding him, Captain Cota at once motioned him away, declaring he was not afraid. Not even as the officer in charge of

the firing party took his place and with his sword metioned the orders to the men. "Ready, present, fire," not even during this trying period was there the least trace of fear on the face of the condemned man. At the first discharge he dropped dead.

the Weird Mountain.

Throwing off the life line, which had become almost an intolerable burden, I scaled the pile of bare rocks and gained the rim of the crater. The great bowl within was deeply filled with snow, but the black circle forming its rim could be distinctly traced. Descending the inner slope for about 100 feet, I found a place where steam was issuing from a crevice in the rocks and warmed my heart on Happy's arm. benumbed fingers. Soon my companions joined me, and we took refuge in one of the many cavern; that the heat of the rocks and of the escaping steam had melted in the lower portion of the snow and ice partially filling the crater. In these weird caverns one may descend far beyond the light of day. The white vapors drifting silently through the dimly lighted passages assume grotesque shapes and suggest to the imaginative visitor that spirits of the time when Pluto's reign was supreme there make turn me loose. Got no money but a their homes.

ing we soon had water enough with which to prepare tea. In the absence of sugar and cream a little alcohol from the supply brought for fuel was added to each cup and proved a welcome stimulant. Making ourselves as comfortable as possible under the circumstances, we passed the night in the cavern of ice. There were no ledges broad enough to lie down on, and we were turn me down for that common coon forced to stand or crouch against the het rocks all night. The floor of our cavern sloped steeply and led down to an ugly opening of unknown depth between the descending roof of ice and the rocks. To guard against accidents, the life line was stretched across the cavern and made fast to crags. This proved a wise precaution, as we were able during the night to walk up and down with the rope in our hands and avoid the stiffness and discomfort that come from remaining long in one position. - Israel C. Illinois Farmers Have Plowing Contests

and Housewives Exhibit Jellies. AURORA, Ills., Sept. 20 .- Five thou sand people saw the sturdy farmers of Kane, Will, Du Page and Kendall coun- and he plowed down the alley. ties match their skill in turning a furrow on the broad acres of David Fry's farm Saturday at the annual Wheatland plowing match and ladies' fair. There were five contests, in each of which three prizes were offered. Alvin Clark, a sturdy young farmer of Tamarack got the hon's share of the awards. There are no fixed fair grounds. The farmers simply take turns in giving the use of their premies for the fete, where the good housewives exhibit their jellies their needlework and their cookery in an immense tent and the plowmen match their skill in the fields. Prizes are also given for the best kept farms in the town of Wheatland. The affair, originally a small one, has so grown in its proportions that it now attracts an even larger crowd than some of the more pretensions county fairs. No admission is charged, no fakes or advertising allowed on the grounds, and the premiums awarded are all donated.

WHIPPED HIS SWEETHEART.

Iwo Columbus Colored Youths Have Trouble Over the Attentions of a Seymour Girl.

Saturday morning at Columbus John Browning, better known as "Snipps' and Jack Curtiss, known as "Happy Jack" had trouble over Miss Sallie Celeman a Seymour lass of color. She was spending a few days in Columbus, and "Snipps" was happy until "Happy Jack" "beat his time". Then he was whip and proceeded to use it on the Columbus Republican gives the following version of the affair.

A WOMAN'S LIFE.

Many Private Troubles Borne Without Complaint.

How many, think you, have any idea of the suffering endured by a large proportion of American women?

You will think us extravagant in expression, yet the fact remains, that diseases of the uterus and ovarian troubles are universal-you may note their ravages in the pale faces you meetmore marked indications are dizziness faintness, irritability, melancholy, extreme lassitude, sleeplessness, severe backache and disturbances of the stomach. A Cincinnati girl says :-

"Words cannot express my gratitude for the good that Lydia E. Pinkham's Vegetable Compound has done for me. i have taken five bottles. The pains miserable. TAKING THE TEMPERATURE.

Experiments at Blue Hill Observatory In the Use of Kites.

BLUE HILL OBSERVATORY, Mass., Sept. 20.—All kite records were broken here when the topmost kite of a string of seven, all of the Hargrave type, with miles of wire, attained an altitude of 10,016 feet above the sea level, or 9,386 feet above the summit of the hill. An aluminum box was sent up containing an instrument for recording pressure, temperature and humidity, and was swung 130 feet below the topmost kite. At the highest point the instrument recorded a temperature of 38 degrees, while at the same time it was 63 at the surface of the earth. At a height of sunk again at a mile where it was quite low. At 70,000 feet it again rose and soon reached a point where there was almost a complete saturation in the air. From there up the atmosphere became dry until at the highest point there was scarcely any moisture recorded. At the ground the humidity was quite low.

Size For Size.

The company of one of the opera houses, at the close of a London season, had arrived at Liverpool to embark for a continental tour. The musical instruments were being shipped with the rest, and among them was the double bass, or "big fiddle," as it is also called, not cased as usual, for this member of the string family will stand a little rough

Nature's Battleboxes.

Near New Brunswick, N. J., says Minerals, are found hollow balls, or masses, of yellow iron ore which contain loose particles that rattle, when shaken, like the contents of a child's rattlebox. It is thought that when the concretions of ore were formed the central parts consisted principally of some material which afterward dissolved away, so that the interior space now contains only fragments of ore and sand. When these balis are broken, the fractured edges sometimes show beautiful bands of red and yellow.

No Disturbances Over the Recent Lynching as Was Expected.

STAR POINTER'S GREAT HEAT.

Alleged Detective Hostettler Returns to the Scene of the Ripley County Lynching-Diphtheria Epidemic In Several Counties-Fatal Well Damp-Charged With Forgery.

VERSAILLES, Ind., Sept. 20.—There was no trouble here or at Osgood yesterday, as was expected, on account of the five lynchings last Wednesday. Thousands of visitors and relic hunters were here and Peter Hostetter, the informant, went about town heavily armed, but did not venture to go to Osgood. The ministers all preached on the recent calamity. Mrs. Jenkins is having her trial today, and the others arrested for concealing stolen goods will be tried on Wednesday.

Had His Gun.

Osgood, Ind., Sept. 20.—A sensation occurred here Saturday evening on the arrival of the eastbound train. Pete Hostettler stepped off with a revolver in his hand and walked quickly to the Versailles hack, and laying his revolver on his lap quietly waited the changing of the mail. His presence produced a hush among the crowd at the depot and not until the hack was well under way to Versailles did they breathe easy. He will probably remain there until after the preliminary trials of Mrs. Rittenhouse and Mrs. Jenkins who have been arrested for concealing stolen goods.

DIPHTHERIA.

Disease Now Epidemic In Several Indiana Towns.

Indianapolis, Sept. 20.—The state board of health says it has evidence indicating that diphtheria will probably prevail unusually when cold weather begins. The disease is already epidemic at points in Jackson, Clinton, Bartholmew, Owen, Laporte, Scott, Lake and Jennings counties. The points of infection are therefore generally distributed over the state. Special information and instruction have been sent to all county, city and town health offi cers and it is believed the disease will not, on account of the precautions at ready taken, be anything near as extensive as last year.

PREIGHT WRECK NEAR SOUTHPORT

Brakeman Killed.

There was a bad freight wreck near Southport about 3 o'clock Sunday morning which resulted in the death of Brakeman J. L. Marshall, of Louisville, and destruction of several thousand dollars' worth of property. It was regular freight train No. 85, which was due at Indianapolis from Louisville at 10 o'clock Saturday night. It was about an attempt to settle the question in five hours late. Apparently without the knowledge of the engineer, the train broke in two somewhere south of Southport. As the head end of the train passed that village it slowed up and the rear portion came down upon it. There was a terrific crash. The cars were mostly loaded coal cars Twelve of them were completely do molished. Head Brakeman Marshall was walking back over the first half. the train when the two parts came together. John R. McLean's Great Newspaper.

Without a single exception, there · beyond doubt no greater or more jular newspaper in the United States than the Cincinnati Enquirer;

cr a more successful publisher than vs proprietor, Mr. John R. McLean. The old-time prices for the Daily

Enquirer have been maintained, and its circulation largely increased each year; hard times and cheaper journals failing to arrest its onward march and high appreciation of the public for its true worth and merit.

The Weekly Enquirer at beginning of the campaign year was offered at 50 cents a year, and its circulation increased by the addition of over 200,000 new subscribers; the most substantial and coveted testimonial a publisher could desire.

When asked for the secret of such success, Mr. McLean frankly answers: monico's all his life. -- St. Louis Repub-The Enquirer has no opinions to force upon its patrons, it simply prints the facts and tells the truth that the reader may form his own cpinions. By maintaining the price of the paper, more news and greater variety can be furnished, and every class of business interests catered to, which a cheaper cases and trimmed with bronze ornapurnal cannot afford.

The very liberal support given the Enquirer by the public at large, makes . incumbent upon the management to serve it faithfully with zeal and enerprise in minor matters as well as se of greater magnitude.
